Vikram Kumar Choudhary

Full Stack Web Developer

PROFESSIONAL SUMMARY

Astute Full Stack Web Developer with expertise in JavaScript and the MERN stack. Known for exceptional problem-solving and quick adaptability, including proficiency in Generative AI. Skilled in crafting scalable APIs, responsive frontends, and optimizing databases. Committed to continuous learning and enhancing development workflows.

PROJECTS

1. Modesens | ⊕ | ⊕ HTML5 | CSS3 | JavaScript | RESTful APIs

- Developed an intuitive e-commerce application interface using HTML5, CSS3, and JavaScript, with secure user registration and authentication.
- Designed and integrated a responsive front-end user experience, optimizing the application for various devices and enhancing user engagement.
- Implemented full CRUD operations for products, orders, items, categories, and bills, and led the creation of the admin section with advanced data management features.
- Collaborated with a team of four to ensure efficient development workflow, completing the project within five days.

2. Budget Buddy | | | | HTML5 | CSS3 | Responsive Web Design | Bootstrap | Tailwind CSS

- Developed a responsive financial tracking web application using HTML5, CSS3, and Tailwind CSS with user registration, authentication, and secure access.
- Designed an intuitive user interface incorporating modern design elements like parallax effect, glass morphism, neomorphism, and dark/light mode.
- Led a team in ensuring code quality, managing the GitHub repository, and enabling features such as transaction history, card management, and support access, completing the project in five days.
